AVS-Europe 12V

AVS-Europe with motif for 24V lamps

AVS-Europe with motif for 12V lamps

Anything that impresses your customers is good for your business.

Whichever way you look at it, the OSRAM AVS automotive lamp cabinet is a clear winner.

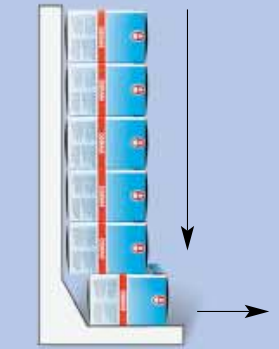

Integrated lamp tester

Two drawers for small parts

Easily adjustable separators for custom stocking

Thanks to the chute system the next pack automatically slides down

Alternating motives liven up your business.

New topics and decorative motives grab the attention of your customers and consistently remind them of more light and security on the streets. That stimulates your business.

Easy replacement of the motives

# Put together your own individual assortment

On this page you will find a suggested stock list for your new lamp depot. For the 12V and 24V ranges. These are the most popular replacement lamps.
